City Park given \$\$10,000 in Revenue Sharing plan

Plans for the use of \$29,283 in Revenue Sharing money were made at a called meeting of the City Council Tuesday night.

This total represents the amount

the City of Hondo will receive between January 1, 1973 and July 1, 1973. A check for \$14,643 has already been received and a similar check is expected before July 1.

A breakdown of the spending as it will be published in an official notice includes: Hondo City Park \$10,000, Recreation \$5,000, Hondo Public Library \$8,500 and preliminary

ary planning for a new sewage treatment tank \$5,283.

The City expects a similar total during the last six months of the year, so these planned use figures could be expended over the period of the entire year.

Since the first Revenue Sharing check was received by Hondo, the city got more than \$49,000 for the year 1972. According to an announcement by the Federal agency handling this Act, there is no requirement for a use report on that amount. But there will be for any amounts received from now on.

The City has spent all but \$17,000 of the 1972 amount and probably will allocate this amount prior to July 1 of this year.

New speed zones set on Hwy 90

A resolution adopting new speed limit zones along Highway 90 through Hondo was accepted Tuesday night by the Hondo City Council.

The new ordinance regulating these speed zones, as recommended by the Texas Highway Department following a recent traffic survey in Hondo, will go into effect just as soon as the papers are signed, returned to the Highway Department and new speed limit signs are posted.

Coming into Hondo from the West the new speed zones will read: From City Limit to Castro Avenue, 60 miles per hour; from Castro Avenue to Avenue X, 50 mph; from Avenue X to Avenue D, 40 mph; from Ave. D to Honig's Welding Shop, 50 mph; and from there to the East City Limits, 60 mph.

At the present the city has a school zone which includes an area west of Avenue M which has a flashing light for 30 mph. It will now have to set up a similar zone covering an area east of Avenue M.

Buddy Poppy sale is set

The 52nd annual Memorial Day Buddy Poppy sale will be held Saturday, May 26, in Hondo and D'Hanis, according to an announcement by Commander Rudy J. Proctor, Jr. of VFW Post 3891 in Hondo.

VFW volunteer members will sell the traditional poppies and proceeds must be used exclusively for welfare of disabled and needy veterans, and widows and orphans of deceased veterans.

Commander Proctor said, "The support of this program by Hondo residents in past years has been outstanding. Many consider it as one of essential to the observance of Memorial Day."

AGRI-BUSINESS TALK ... Planning for an Agri-Business Seminar was detailed at a Monday night meeting in the Hondo City Municipal Building. The Seminar will be co-sponsored by the Hondo Chamber of Commerce Agri-Business Committee and the Texas A&M Extension Service. Slated for sometime either in late September or middle October the seminar will extend over two nights. In on the planning from left to right were: County Extension Agent Glenn Bragg; Kenneth Graeber, Area Economist of Uvalde; Kenneth Wolf, Economist, Texas A&M University; and Henry Nietenhoef, chairman of the Chamber committee. Further details on the seminar will be announced later.

Parker Creek dam to prevent flooding

An earthen dam with a rock facing being constructed eight miles north of D'Hanis on Parker Creek will put 520 acre feet of water per year into the Edwards Aquifer and reduce dangers of future flooding in D'Hanis, which suffered flood damage in the past.

Parker Creek is a tributary of Seco Creek which flows through D'Hanis, explained Col. McDonald D. Weinert, engineer-manager of the Edwards Underground Water District, which this month let a contract to Pfeuffer Construction Company of New Braunfels to build the dam for \$319,222.

In addition to providing flood control, the dam will impound much of the water that otherwise would run downstream and would be dissipated on the area below and thus be lost to the Edwards Aquifer.

The recharge that can be expected for the Edwards Aquifer from this dam under normal rain conditions will be approximately the same amount of water that is used by a town the size of D'Hanis (population 506) or enough to adequately irrigate 260 acres of land, Col. Weinert stated.

Flying Official

Lackland AFB -- The beginning of the Air Force's newest flying program at one of the oldest military aviation bases was officially recognized on May 17 in Hondo.

The School of Military Sciences, Officer begins its Flight Screening Program at Hondo Municipal Airport-formerly Hondo Air Base-with 50 officer trainees destined to attend one of the Air Training Command's nine Undergraduate pilot training bases.

Brief ceremonies marked the official beginning of the program, with Brig. Gen. Guy E. Hairston, Jr., Commander of the Officer School, Hondo City Manager Fritz Leinweber, and Del Rio Flying Service's Bruce Baize on hand for the event.

According to Gen. Hairston, "Within the next few months the ATC flight screening program will be consolidated at Hondo and screening programs at the UPT bases will be closed. This consolidation will result in considerable savings each year."

The concept of the program is to

Johnson resigns position

Fred Johnson, manager of the Hondo Electric System for the past three years, has resigned effective June 1.

Johnson's resignation was accepted Tuesday night at a closed meeting of the City Council where he read his letter of resignation.

At the same time, the Council promoted Gene Harrison, who has been Johnson's assistant since he came here in May, 1970, to the position of manager.

Johnson has accepted a job with Gary Aircraft Corporation that will entail electrical system supervision at all three Gary plants in Hondo, San Antonio and Victoria.

He and his wife, Mary, will continue living in Hondo.

Graduation records at Hondo High School seem to be made to be broken, and next week's ceremonies that conclude the high school career of 122 graduates again will set a new high in numbers.

Those long awaited ceremonies are the Baccalaureate Service the evening of Sunday, May 27, and Commencement on the evening of Tuesday, May 29.

Baccalaureate Service is scheduled at 8 p.m. Sunday in the St. Paul Lutheran Church, with the Rev. A. M. Hannemann, pastor of St. Paul Lutheran Church, giving the sermon.

The Rev. L. S. Dubberly, pastor of New Fountain Methodist Church, will give the invocation following the prelude and the processional.

He will be followed by the Rev. William Landers, pastor of the First Baptist Church, with the scripture reading and the Anthem by the St. Paul Lutheran Church Choir. After the sermon the choir again will perform the Anthem, and Father John R. Kanda, St. John's Catholic Church, will give the benediction.

Commencement is scheduled for 8 p.m. on Barry Field, with the Gymnasium the alternate in case of inclement weather.

Estella Leyva will begin the event by giving the invocation.

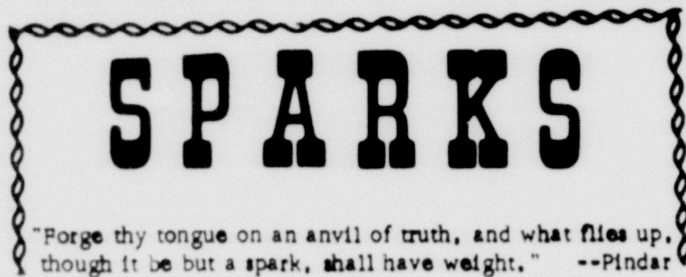

This will be followed by the Salutatory address given by Amy Johnson, an address by Senior Class President Raul Rios, and the Valedictory address by Nancy Lutz.

Board members Henry Dominguez and Elmer Joe Leinweber will present diplomas to the 122 graduates and Evangeline Carmona will close the ceremony with the benediction.

RECEIVES FACELIFTING ... Majestic St. Louis Catholic Church, Castroville, receiving a face-lifting. Restoration of the century-old church began in October, 1972, and is scheduled to be completed in June, 1973. The somewhat touchy, \$142,611 renovation project did much to improve, beautify and preserve the historic church and to make it more serviceable to the needs of the

parish family. But very little was done to change the architectural style and looks of the structure, which stands as a monument to the fidelity of the Alsatian colonists and their children of pioneer days. A rededication Mass in the restored Church has been planned for June 24, 1973, with a celebration on the parish grounds following the services.

BETTER LATE

... than never is a saying which I seem to live by constantly. Or at least I fall back on it as an excellent excuse more frequently than most.

And here I go again, this time on Museum Day. Someone challenged me on the paper not telling who won the chili cook and the bread contest.

"Why, we must have," I retorted.

But, you guessed it. We didn't.

On the Chili Cook it turned out to be a clean sweep by San Antonio. The Brook Hollow Boozers grabbed first place; Bill Roegel took second; and the Yellow Dog Gang won third.

Herein lies a tale that could take on a funny aspect, depending on where you are when you are looking at it. The Brook Hollow Boozers were talked into coming to Hondo by the Brazo-Barristers, Inc. And they had only cooked chili one or two times before taking that journey westward. Yet, they beat out the experts--the Barristers.

In the Bread Contest, which was a howling success, Mrs. Lillian Schweers says that: "Nancy Martin, 11-year-old daughter of Mr. and Mrs. Rothe Martin, was the overall winner. Other winners included: White Bread-Nancy Martin, first; Mrs. O. E. Laughinghouse, second; Mrs. B. W. Shaw, third; Whole Wheat and Rye-Mrs. O. E. Laughinghouse, first; Mrs. F. H. Hollmig second; and Mrs. Al Schiffers, third.

So, there now! I have run the winners and the only thing I can say to them is, "It's better late than never."

NEXT WEEK MARKS

... a first for the Medina County Museum. It will be open seven days per week beginning Monday, Memorial Day and extending through Labor Day.

Much effort has been expended by the Hondo Chamber of Commerce to obtain statewide publicity on the Museum Camp, open to the traveling public. Excellent cooperation has been provided by Frank Hildebrand, executive director of the Texas Tourist Development Agency, and Richard Pierce, Texas Highway Department Travel Division. We owe them a vote of thanks.

In fact, Monday, while I was in Austin, I talked to Hildebrand on the phone and thanked him for his efforts to get Hondo on the Hill Country Trail. "Well," he said, "I am sorry that everything has combined to keep the committee from meeting.

"But once we complete the Texas Arts and Crafts Show [scheduled for this weekend in Kerrville], I assure you we will meet. And I believe the information you gave me on your Museum will help sway the decision in your favor."

Naturally, all of this help would not have been needed without the tremendous efforts of many local citizens over the past few years.

John Wentz and Frank Graff have performed miracles in

Letters from the mailbox

To the People of Hondo: Dear Hondonians,

Just wanted to let you know how much we enjoyed your Museum Day, South Texas Championship Chili Cookoff, and what a fine bunch of people we met. We really enjoyed Dooley and the gang and his wonderful bell that woke us up so bright and early Sat. morning. And that buried goat they dug up was really great tasting, especially dipped in Chili.

My near teenage son, Tracy, couldn't resist having two Kena Freeze malts. He said they were the "best in Texas". Tracy, who's been practicing the art of spitting, decided he was old enough and big enough to enter the Tabacco spitting contest-which he lost. But I'm afraid my green-faced, dizzy, little son lost his two Kena Freeze malts in the process, also. He thinks he'll stick to licorice spitting contests from now on.

My youngest son, Johnny, had a great time searching the area for old bones and bottles and wasps nests, and anything else he could fill his pockets with. He thinks the area might be an old dump and wants to come back with his shovel to find more. So next year if you step in a bunch of holes, you'll know whose been there.

My husband, Tex, enjoyed harmonizing with our good friends, the Brazos Barristers. You remember him, the short one with the guitar and the great big voice.

And I had a great time because I always enjoy cooking chili and meeting people. I would like to pass on to you the creed of the Houston Pod of the Chili Appreciation Society International of which I'm a member.

a. To develop finer strains of chili

b. To encourage wider use of chili among peoples of the world

c. To promote peace, prosperity, pungency, play, patriotism, and public pride by making chili an official aspect of American culture

d. To increase the physiological, structural and psychological therapeutic benefits of chili through chilogical research

e. To enhance the prestige of the International Society through such programs as National Chili Week, the Miss Chili Pageant, Happy Jalapeno Holidays, the Chili Music Festival, the Nobel Chili Prize, etc.

f. To get your mind off your business worries.

I'm sending along my book I've published which is a collection of Chili and Tex-Mex recipes called "Mis Amigos Hambrientos" (My Hungry Friends), which includes my prize winning "Hot Pants Chili" and other delicious recipes. If anyone would like a copy it may be ordered from the Allegani Press, 2728 Plumb, Houston, Texas 77005. Cost of the book is

\$3.00. It also tells all about your native son, Hondo Crouch, and how he became a champion to the ladies cause by letting us cook Chili in his town.

The Chili heads of the Chili Appreciation Society International, (CASI), would love to see all of you come to the State Champion Contest (all Male) in San Marcos in September, the all Female contest in Luckenbach in October, and of course the great International Contest of State Champions in Terlingua in November. Oh, don't forget the Menudo Contest in San Antonio July 28, and the Luckenbach Worlds Fair June 30.

Last but not least, I'd like to let you people know that you have, by far, the meanest, biggest, meat-eating chiggers I've run into yet. Does anyone know how to get rid of them?

See you next Cookoff.

Chillyly,

Allegani Jani Schofield
P.S. Here is my check for \$5.00, I forgot to give it to you while I was there. And I loved your Museum, especially the scales. I could tell how much chili I had eaten.

May 16, 1973

Dear Editor,

Thought I would let you know that the museum celebration weekend was terrific as far as I'm concerned. Hondo is filled with lots of good people.

I received sufficient praise from my boss because I made it to the chili cook-off despite a mechanical failure in the news car.

I was credited with hitch-hiking to the cook-off. But actually, I was assisted by Marilyn Dale and Carolyn Heyen, two kind residents of Hondo, I believe. Thanks to their assistance and the couple in the pick-up truck who offered help... I made it to the story. And I am most grateful.

Sincerely,
Rita Trevino
Eyewitness News
KENS-TV

Dear Mr. Lawrence:

Restoration work on century-old St. Louis Catholic Church here in Castroville is nearing completion and we're trying to get the news out to all of our friends in the state.

A re-dedication Mass and celebration have been

planned for June 24, 1973 with many church and civil dignitaries present.

I am enclosing some photos and news releases that you can use if you would like to help us publicize the affair.

Finally, we would like to thank you for all the publicity help you've given us so often in the past and to personally invite you to come down to Castroville and celebrate with us on June 24.

Sincerely yours,
Gerry Kempf, Publicity
St. Louis Restoration

[Editor's Note: Gerry, we are always happy to help you in these projects. This church and your events are popular attractions and always bring visitors to our county. Keep up the good work.]

May 20, 1973

Dear Mr. Lawrence:

I am writing through your editors column to remark on a few incidents that took place last week.

The yearly cheerleader tryouts took place at Hondo High School and when it was all over the head cheerleader from last year, Judy Coyle, had been left out all together. The fault lies not in Judy, but in a group of junior girls, myself included, who fixed the voting to exclude Judy.

I have never felt such shame and selfishness as I do now. To me, Judy was the best and most beautiful cheerleader Hondo High School has ever known. But because of the jealousy that overtook us, we succeeded in ruining another great year for Judy and the whole school. I only wish now, that something was possible to put Judy back in for I know my ballot and those of many other conspirators would now have Judy marked at the top seeing the sorrow and heartbreak we have already caused!

I want to apologize to the people of Hondo, the Hondo High School students, the Coyle family and, especially, to Judy for pulling such a selfish stunt as I and others did. I do not wish my name to be printed here, for I intend on apologizing to Judy personally and only hope she can see forgiveness.

Thank you.

Congratulations to David Codena. The Navy recruiter tells me David has signed up for the reserves and will go into the regular Navy sometime this summer.

Helene Wollschlaeger writes from Uvalde where she is now living. She says hello to all her friends and says her address is 622 Dean St., which is only a few blocks away from the Garner Museum. She says: "At the Garner Museum, I casually mentioned that Hondo has started a little museum also, and Mrs. Porter (yep, that's her name) replied, 'Hondo has a very nice museum. They have lots of interesting items.'"

Mrs. Paul Riley has suggested a rose garden as a tourist attraction in Hondo. She believes 500 to 100 plants are all that are needed to get Hondo listed in many of the well-known travel books. This is a very good recommendation and along with the Museum and Garden Club project along the railway this would help get Hondo on the tourist map.

A nice letter comes from up in Alexandria, Va.:

"Gentlemen, I plan to retire in the near future and am interested in locating in your vicinity.

"If available please send me brochure and any other information on small farms

or acreage. I will also appreciate the name of your newspaper. Thank you. Sincerely, Cletus L. Eadie."

And another one:

"Dear Sirs,

"I certainly appreciate your sending me the information concerning the origin of the name Medina and Hondo. It will be a great help to me in work I am trying to do. I am listing you as an informant for Medina and Hondo. With best wishes, Sincerely, Kelsie B. Harder, English Department, The State University College of Potsdam, New York."

Education bill vital--Poerner

BY JOHN H. POERNER
45th LEGISLATIVE DIST.

Earlier this year, the United States Supreme Court overturned a lower court decision declaring unconstitutional the Texas system of use of property taxes to finance public education. In doing so, it placed responsibility on the State Legislature to devise a plan that would eliminate the disparity of monies available to poor and wealthy districts.

Two proposals that have been submitted to determine the best education system possible are fundamentally different. The first, House Bill 946 sponsored by the Texas State Teachers Association and to be implemented over a six-year period, would provide state assistance to some schools but deny it to others, based on the wealth of the districts.

Cost is a main objection to this bill. Commissioner of Education, Dr. J. W. Edgar, in a letter of certification to Governor Briscoe, said that "full implementation of House Bill 946 would cost \$1.78

billion over the six-year period."

The expense is prohibitive, even to a taxpayer who is interested in the best education possible for his children. A four cent on the dollar increase in sales tax would be needed to raise the sum required by the bill.

Governor Briscoe opposes this type of school financing. Each time I discuss the matter with him, he reminds me of his promise to the people of Texas to live within available revenue sources during his term as governor. I certainly admire him for his strong stand.

I have introduced another proposal that more closely follows the Governor's and my own feelings. The proposal would allocate 39 million dollars from existing funds to the poorest 25 percent of the state's school districts. This comprises 113 systems, including the Natalia Independent School District. Natalia is the only qualifying school system in our 45th Legislative District due to their restricted ability to raise revenue from their limited land area.

Neither the Governor nor myself claim this measure to be a "cure-all" for school financing. It is only a stop-gap measure that would allow the Governor time to come up with a comprehensive program that would eliminate some of the areas in our system that are outdated and are not producing the quality of education desired by society.

It is also important to note that the Constitutional Convention will address this issue of education and could have a profound influence on the state program.

In summary, I think it is risky to decide a major issue in haste. To adopt House Bill 946 at this time would be doing just that. Many revisions would be required to clear up any mistakes made during this session if it were passed into law. The Governor's approach is the reasonable method of handling school finance at this time, for it would leave us on solid ground to complete more thorough studies on the most efficient way to educate the children of Texas.

Budget hearing scheduled

A public hearing to discuss the proposed budget for the City of Hondo for the coming fiscal year has been called for Tuesday, June 12.

This will be the regular meeting night of the City Council.

At that time the budget will be outlined and discussed and the public will be heard on these proposals.

More about . . .

Sparks

bringing the Museum to its current status. And they received help from the Board.

Nora Winkler, with some early help from Gladys Lindeburg, has accomplished the Herculean task of designing and arranging displays.

I know I am omitting others whose efforts have been very instrumental in the success of this project. But I assure you their efforts are appreciated.

The final results of all this work, time and energy is "one of the finest museums in the state," according to one quote from an out-of-town expert.

We have a Museum we can show with pride to all our summer

visitors. So remember, the Museum will be open from 9 a.m. to 5 p.m. every day except Sunday, which will be 1 to 5 p.m. So, when you have visitors the Museum is a MUST on their schedule.

They will enjoy it, and I bet you will take pride in their compliments.

HOW DO YOU STOP

. . . a thief who would stoop so low as to steal flowers, plants and even small trees from around the graves in our cemeteries?

I know this problem has been aired before in this column, but it still exists and there should be an answer somewhere.

Buster Rath is just one of the latest to mention the despicable actions of some culprits who steal from the graves.

Then only last week someone literally ripped up the rose bushes from around the yards of Paul Glowka and Bill White.

If you think you have a solution, drop us a line and let us present your idea.

NEW 4-H OFFICERS . . . For Medina County are [front row]: Chairman Mariette Aelvoet; Boy Co-Chairman Tim Gilliam; Girl Co-Chairman Deanna Howard. Back row: Karen Howard of West Devine 4-H; Joe Hartley of Natalia; and Paula Moos of South Hondo Unit II.

St. Louis Church gets facelifting

Castroville -- The time, July 2, 1868; the place, St. Louis Catholic Church, Castroville, Texas.

Imagine, if you can, a small gathering of hard-working Alsatian parishioners--carpenters, stone masons, and laborers--busy at work constructing a new church; a church which will be one of the largest structures of its kind in the state of Texas when completed.

The 150 foot long, 52 foot wide building they have planned will be the Parish Church for the oldest catholic Community between San Antonio and the Rio Grande. It will have to serve a parish family that originally spread as far south as the Mexican border and as far west as the boundary between Texas and New Mexico.

The workers have been busy on their new church since 1867 and gave set a target date of August, 1870, for completion of their project. They're hoping they can have the job finished by the feast day of their patron saint, St. Louis, on August 25. They'll make it. They are an experienced church building group. You see, this is the third St. Louis Church that most of them have had a hand in building. But the other two buildings were not this large, not by a long shot.

There was that small one built in 1844. There weren't many parishioners then and they didn't need a large church. Then, as the parish family grew, they had constructed a larger church about a block to the north of the first one. That second

church was dedicated on Easter Sunday, March 31, 1850.

And today, July 2, is a kind of special day. Everyone is assembled out in front of the building site, near the entrance of the church. Today the cornerstone is being laid. There are a lot of dignitaries on hand. Standing next to the

pastor, Rev. Peter Richard, is the Bishop of Texas, His Eminence Claude Dubuis. He was the first resident pastor of St. Louis Parish from 1847 to 1851. Into a small hole in the huge block of limestone, Father Richard inserts a tin can. In that tin can is undoubtedly some information that will be of great historical value at some time in the future. The cornerstone is then sealed into place, and after a short ceremony, work on the church again commences.

Over a century after the cornerstone was originally laid, St. Louis parishioners are again busy at work on that same church. On October 22, 1972, major restoration work on this historic structure officially began. This \$142,611 project is scheduled to be finished by June 24, 1973 at which time a rededication Mass will be offered in the Church.

This past March 12, during renovation work, the cornerstone was removed in hopes of finding a time capsule containing information from the distant past. A corroded tin can was found where it had been placed over a century ago. The can was opened, but time had taken its toll. The contents had turned to dust. A great disappointment, indeed!

Protect the Edwards Underground Reservoir. The drinking water you save is your own.

Lawrence to attend meeting

The Hondo Chamber of Commerce will be represented at the first meeting of the new Tourist Committee of the South Texas Chamber of Commerce on May 24 in Austin.

Chamber President Burnis K. Lawrence will attend the meeting at the Sheraton Crest Inn in Austin.

Plans for a new tourist brochure on South Texas will be features of this meeting. Lawrence will report back to the Hondo Chamber Board of Directors how the city can be included in this brochure which will have at least a 500,000 circulation.

Frank Hildebrand, executive director of the Texas Tourist Development Agency, will report on the national advertising schedule that will be used by the state in the months ahead.

Tom Taylor, head of the Texas Highway Department's travel division, will brief the group on the annual Texas visitors industry survey which has just been released.

Other promotional projects for the South Texas area also will be discussed at the meeting.

Penal Code revised by Legislature

By Bill Boykin
Texas Press Assoc.

Austin -- The first overall revision of the Texas penal code in more than a century is nearing final passage as the legislature plows through its last full week of regular session duties.

House members promptly went to work on the bill after the Senate passed it last week.

The revision is the product of a seven-year study ramrodded by the State Bar of Texas.

Generally, the code pulls together the thousands of criminal laws scattered through the statute books.

It groups felonies and misdemeanors into classes, ranging from most severe to minor offenses and fixes a range of punishment for each.

Many separate statutes are consolidated into comprehensive

sections, and laws covering a variety of attempted crimes are grouped under a general attempt provision.

The new code increases maximum penalties for certain crimes of violence. Murder without malice, for example, could carry a maximum term of 20 years compared to five under present law.

Penalties for some other crimes were lowered. Minimum, as well as maximum, punishment is provided in each category of felony.

One of the major changes in existing law is the definition of insanity as applied to defense in criminal cases. The new definition terms insanity as a mental disorder or defect that prevents one from conforming his conduct to requirements of the law. The old "M'Naghten rule" terms a person insane who does not know right from wrong or understand the nature and consequences of his acts.

Welcome Wagon planned

Final details for beginning a "Welcome Wagon" type of greeting for newcomers are almost complete and this much needed service should be in operation soon.

Leni Johnson serves as chairman of the group of women who are working with the Hondo Retail Merchants Association and the Hondo Chamber of Commerce on this project. Some of the other women on the project are members of the newly organized Junior Service League, which is taking an active role in serving Hondo.

A letter was mailed last week to local merchants seeking their active participation in the project.

The letter, mailed through the Chamber of Commerce, stated: "In order to make these newcomers feel welcome in our community and to acquaint them with the retail merchants in Hondo, the welcoming

committee will present them with a book of coupons or gift certificates from each participating business and also show interest in the family by introducing them to the facilities and businesses which our town offers."

It continued: "A write-up will be published in the Hondo Anvil Herald as each visit is made, telling the community about the family visited, their names, number of children, church affiliation and various interests."

Merchants are urged to cooperate in this venture by returning their letter to the Hondo Chamber of Commerce.

"We are getting more newcomers to Hondo each week," a spokesman said, "and we feel it is imperative that we welcome them and acquaint them with what Hondo has to offer."

Hondo resident elected

Arlington -- A Hondo resident was among the three men from the San Antonio area who were elected officers of the Reserve Officers of Texas when the Association held its annual convention in Arlington.

Colonel Preston H. Dial was elected Judge Advocate for the coming year, and Colonel George W. Frimpter was elected Surgeon. Lieutenant Colonel Burnis K. Lawrence of Hondo was elected Historian.

President for the ensuing term is Colonel Richard M. Burrage of Houston.

More about . . . Flying official

provide the Air Force with an indicator of flying talents and abilities before a student is commissioned a second lieutenant and enrolled in UPT. This new system will screen out those students who are deficient in flying skills and cannot complete an advanced flying course.

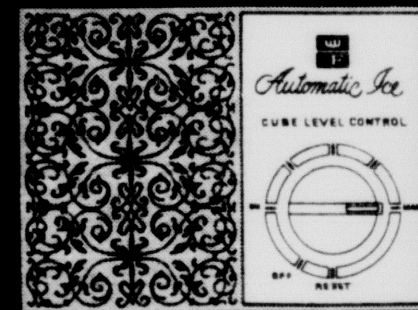

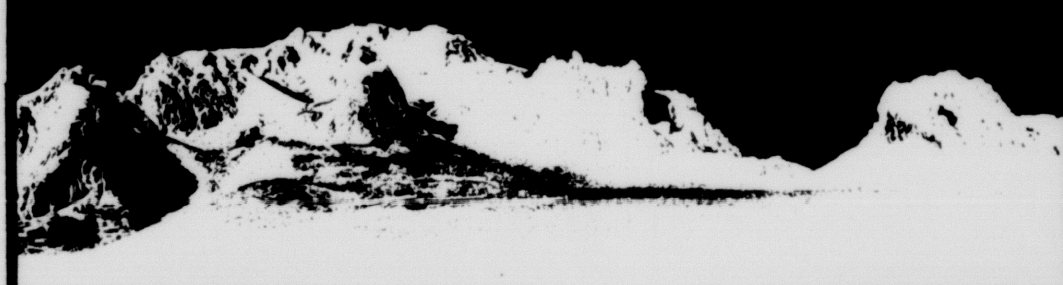

If a student is not qualified for advanced flying, he will not be allowed to enroll in a pilot training program.

The Hondo Municipal Airport is not stranger to military aviation. Ever since its opening in 1942, the airport has seen a variety of military aircraft including the AT-7, B-34, T-6, T-28, T-37 and now the T-41.

The screening program will continue to expand until it reaches its goal of 180 students using over 80 aircraft. Instruction will be provided by civilian instructors employed by the Del Rio Flying Service of Del Rio, Texas.

The Flight Screening Program is under the direct control of Col. John G. Schmitt, Jr., the officer school deputy commander for Flight Screening and Operations.

A & M to host 4-H Roundup

College Station -- It's Roundup time in Texas once again--4-H style, that is.

Texas 4-H Roundup, one of the oldest annual statewide 4-H events in the nation, is slated for June 5-6 at Texas A&M University, announces Dr. Don Stormer, state 4-H and youth leader with the Texas Agricultural Extension Service.

More than 1,800 4-H boys and girls from throughout the state will be participating and will bring with them a multitude of talents and abilities as they compete in more than 30 contests and demonstrations ranging from livestock judging to public speaking.

In addition to the 4-H'ers, Stormer points out that some 600 adults, including county extension agents, 4-H leaders, friends of 4-H, mass media representatives, contest donors and members of the board of directors of the Texas 4-H Youth Development Foundation, will also be on hand. T. Louis Austin of Dallas chairs the board.

Four-H'ers attending Roundup have already been named county and district winners in the various demonstrations and contests. Only first and second place winners in district competition at the senior level (15 years of age or older) are eligible to compete in the state event. There are 13 districts of the Texas

Agricultural Extension Service, the parent organization of 4-H.

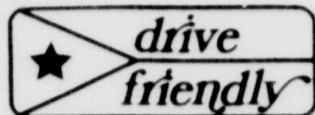

This year's Roundup will officially get under way with a general assembly at 5:30 p.m. on June 5 in G. Rollie White Coliseum on the A&M campus. Special awards will be presented to ten individuals, businesses and mass media representatives who have made outstanding contributions to 4-H. The awards will be provided by the 4-H Foundation.

Twenty-six outstanding 4-H adult leaders (two

from each Extension district) will be recognized at a luncheon on June 6. Contest winners and donors will be honored at a

special recognition program that evening.

Four-H Roundup is the highlight of the 4-H year in Texas, contends Stormer. Four-H enrollment continues to increase and now totals more than 120,000 youth between the ages of 9 and 19.

HONDO — 426-2472

Mr. and Mrs. William E. Moore of San Antonio announce the engagement and approaching marriage of their daughter, Brenda Joyce, to J. E. Saathoff of Hondo.

Parents of the bride-groom-elect are Mr. and Mrs. Ehme Saathoff of Hondo.

The bride-elect is employed at United Services Automobile Association in San Antonio and her fiancé is a farmer and rancher.

A June wedding is planned.

Officers chosen at Band Banquet

The Hondo High School Band held their Annual Band Banquet last Saturday, May 19th, at McDowell Cafeteria.

New officers for the 1973-74 school year were announced. They are: Rhonda Hare, President; Dottie Woolls, Vice-President; Belinda Wermette, Secretary; and Laddell Been, Reporter. Class Representatives are: Soph-

omore, Linda Mazurek; Junior, Anna Renken and Senior, Debbie Aelvoet.

Majorettes will be Marcy Mueller, Theresa Nira, Linda Bendele and Carol DeMontel. Drum Major will be Alfreda Brookshire. Selected as Band Sweetheart was Rebecca Jordan.

Music for dancing was furnished by the Fredericksburg High School Jazz Ensemble.

Connie Saathoff A & I honor grad

Connie Lou Saathoff of Rt. 1, Hondo, daughter of Mr. and Mrs. Rolf Saathoff, graduated cum laud from Texas A&I

University, with a Bachelor of Science degree.

She was one of only 82 graduates with honors and one of 40 to graduate cum laude.

Other area graduates were James Wayne Briscoe and George Edmund Hagen, both of Devine, who received Bachelor of Science degrees.

Deborah Burt graduates at SWTSU

Deborah Claire Burt, a 1969 graduate of Hondo High School, received a bachelor of arts degree during commencement exercises of the College of Arts and Sciences at Southwest Texas State University in San Marcos Saturday.

Speaker at the ceremonies was State Rep. John H. Poerner of Hondo.

Deborah, who plans a teaching career, majored in

English and had a minor in history. At SWT she was a member of Sigma Tau Delta, National English Honor Society; the Texas State Educational Association, and Gamma Sigma Sigma, National Service Sorority. She served as treasurer of the latter organization for two years.

The new graduate is the daughter of Mr. and Mrs. Fane L. Burt of Bandera and formerly of Hondo.

Deborah Burt

4-H Club News

Ray Horners Monday evening.

Mrs. Clara Moehring enjoyed visiting Mrs. Paul Schott one day this past week.

Mr. and Mrs. Floyd Burton and Miss Vicki Biediger accompanied Marvin Burton to Dallas Saturday, where he will stay for a few days.

Mr. and Mrs. Sidney Stuebing were guests of Mr. and Mrs. Ray Horner Thursday evening.

Mr. and Mrs. Sam Tschirhart visited Mr. and Mrs. Louis Ross at Boerne this past weekend.

Guests of the Dennis Wengenroths on Mother's Day were Mr. and Mrs. Bill Wengenroth and Mr. and Mrs. Ervin Hitzfelder and Royce.

A 4-H Council meeting was held at the Medina County Courthouse May 14.

Following the motto by Terry Tschirhart, Prayer by Scott Howard, Pledge by Joev Hartley, and Roll Call and minutes by Robin Saathoff, and treasurer's report by Jimmy Mumme, the club elected new officers.

Girl Chairman was Mariette Aelvoet, and Co-Chairmen were Timmy Gilliam and Deanna Howard.

Secretary is now Karen Howard, Treasurer is Joev Hartley, and Reporter is Paula Moos.

Tim Gilliam reported on the District Council and Joev Hartley and Mariette Aelvoet reported on the Texas 4-H Congress, to be held July 10-12.

Plans are being made for the June 11 Rally Day. The Rally Day program will be by the Lackland Sentry Dog School. LaCoste will register the guests, Hondo 4-H'ers will direct recreation, and Deanna Howard will serve as Life guard.

Assistant County Agent Wayne Scholtz announced that the County Camp will be July 14-16 at Texas Tech adjunct in Junction.

The County Record Book workshop will be held Friday, June 1, at 10:30. Members are to bring a sack lunch. Books will be due in District office by July 26.

Those who will help at the 1973 Horse Show, to be held June 8, are Tim Gilliam, Jimmy Mumme and Andy Aelvoet.

--Shirley Wurzbach

Brenda Joyce Moore Garden Club workshop set

A workshop for incoming presidents and program chairmen of Garden Clubs in District VII, Zone II, will be held May 24 at 9:45 a.m. at the San Antonio Garden Center, 3310 North New Braunfels Avenue, San Antonio.

Attending will be Mrs. George L. Cole and Mrs. Hilmer Haegelin, both of Hondo. Mrs. Cole serves as District Chairman for High School and Junior garden clubs and Mrs. Haegelin is chairman of the Sears Award.

Two students from Hondo get degrees

San Antonio -- Two students from Hondo Sunday, May 20, received degrees from Our Lady of the Lake College here. Degrees were conferred on 635 students in Commencement Exercises in San Antonio's Theatre for the Performing Arts.

Receiving degrees were M. Lou Leinweber of 1206 27th St., B.A. in English, and Camille Martin Sandusky of 306 Ave. M, Master of Arts in Communication Disorders.

Visiting Mrs. Albert F. Schneider Wednesday was Mrs. Ray Horner, Mrs. Paul Schott and Terri Tarvin.

Mr. and Mrs. Calvin Schott enjoyed visiting the

This week All she wrote by Edna McDade

"Century notes" have I none. And, what with the de-valued \$, maybe it's just as well that I am settling for a savings account of HALF-CENTURY notes, made from the files of 1923 Anvil Heralds. Here are a few:

HHS 1923: Six girls and six boys made an even dozen graduates that year. I'd better not mention the girls since a woman's age is said to be her own personal business. But, the boys won't mind, I'm sure.

F. MARION ["Brother"] DAVIS was valedictorian, Class poet was ORIGEN ["Getter"] CROW, sometimes called "The Bard". Rhymester or no, he received credit for having had the first "radio-phone" in Hondo and he constructed it himself. It received "repeated musical programs from Station DM4 Kelly Field" and he usually had an eager audience listening to the "miracle" with him, taking turns at the ear phones, I suppose.

HCL 1923: This from an ad, quoted verbatim: Two-bit hair cuts & dime shaves? Thick, tender steaks 20 cents a pound? Three custom shirts for \$5? Well, them days are gone forever BUT... Tires that cost \$23.40 in 1910 were available for \$23.40 in 1922; \$21.30 tires were \$10.65; and \$51.85 tires were \$22.35 and these lower prices bought better-made tires, due to improved methods of manufacturing and quantity production. Although wages had increased 114% and cotton was up 54.8%, crude rubber had dropped 88% in 12 years.

Now, do you feel better about being 50 years older [whether you're willing to admit it or not] and are you still harking back to the good old days? ... More "half-century notes" next week.

On Sunday, 4/25, I "Museum-sat" for a few hours when Frances Harriet [Mrs. M.D.] RIFF and I took over for SALLY BRUCKS who "had the duty" that afternoon but who also had to attend an important pre-M-day meeting.

Among the guests who registered were Mr. and Mrs. C.F. CRITES of 6 White Tail Drive, Kerrville. Mr. C is a former telegraph operator having been with the Burlington & RR in 1928. He had retired long since to take on new responsibilities before actual retirement and the move to the Hill Country.

It was a happy coincidence for two men when FRANK ROTHE walked in and, as is his custom, went right to the old SP-WU "office" where he began to "test" the equipment. At the sound, Mr. C joined him and reminiscence took over. I think the proverbial good-time-was-had by both.

When RONNIE, son of the ROLFE BOHMFALKS and now on the HEB payroll, heard by the store grapevine that "We're getting a new window-washing appliance" little-did-he-dream, or so he said.

He was applying the good old muscle power when I saw him atop a tall ladder and remarked that he seemed to be getting up in the world.

"Oh, yeah," he grinned good-naturedly as he explained how it all came about. Doing the job that has to be done, when it has to be done, and doing it right is an old success maxim that still holds good.

"One who sees turquoise... early in the morning will pass a fortunate day." This is from an old Indian legend which is quoted by GENE REINARTZ, Silversmith, and I hope Gene and Mrs. R passed a very fortunate M-Day in Hondo this year. They and their two children are recent permanent transplants to Hondo from Colorado.

I stopped at their outdoor display to "look and long" [the equivalent of the popular "window-wishing"] and I was amazed at the professional artistry of the items on display as their creator worked busily demonstrating some of the techniques involved.

I also admired the painted rocks, work of their daughter whose name I failed to make note of and so can't remember. I chose one small paperweight that I feel I might have "inspired" since it pictures a snail with this admonition to my speedier associates who can still "afford" to "hurry, hurry" or "andale, corrie!" Says my little stone-faced snail "DON'T RUSH ME!" No wonder I love him... or could it be her?

Although I did not get to see my good friend, LAURA WINDROW, during my recent visit, I did hear that she had sold her business in anticipation of retirement—at least for the present.

And, Laura, I do "believe" in retirement... even though I miss the old chores... However, after the busy pace you have kept in the many services you have rendered to your community, perhaps you'll not find it easy. [LIZ MAPLES can recommend the advantages of the more leisurely life.] Whatever paths your energies follow, may happiness be yours.

The week's visitors "from Hondo" included LOUISE [Mrs. W. L.] TAYLOR and her two daughters, DOLORES [Mrs. Bill] RILEY and JEANE [Mrs. Earl] CURETON, both of SA. They were accompanied by their aunt, Mrs. RUBY BOWERS who is among my "fellow citizens". A good visit all around.

Here's good advice from a Rotary Club member: "If you want to test your memory, try to recall what you were worrying about one year ago today."

'Charge to Graduate' still holds true to all 1973 graduating classes

[Editor's Note: This speech, delivered in June 1970 by Eric A. Walker, President of The Pennsylvania State University, still contains many pertinent points of truth. Although delivered to a university graduating class, it can be directed just as appropriately to high school graduates, or persons who have long since graduated or never did. Jake Schuehle provided this copy to the Anvil Herald, and we want to say to him: "Thanks, Jake, and it's better late than never.]"

The ceremony marks the completion of an important phase of your life. It is an occasion in which all who know you can share in your sense of pride and accomplishment. But no one has more pride in your accomplishment than the older generation. But I am not going to tell that older generation how bright you are. Nor am I going to say we have made a mess of things and you — the younger ones — are the hope of mankind. I would like to reverse that process. For if you of the graduating class will look over into the bleachers to your left or right, I will reintroduce you to representatives of some of the most remarkable people ever to walk the earth. People you might want to thank on this graduation day. These are people you already know — your parents and grandparents. And, if you will bear with me for five minutes, I think you will agree that a remarkable people they are indeed. Let me tell you about them.

Not long ago an educator from Northwestern University by the name of Bergen Evans, a radio performer known to your parents, got together some facts about these two generations — your parents and grandparents. I'd like to share some of these facts with you.

These — your parents and grandparents — are the people who within just five decades — 1919 - 1969 — have by their work increased your life expectancy by approximately 50 percent — who while cutting the working day by a third, have more than doubled per capita output.

These are the people who have given you a healthier world than they found. And because of this you no longer have to fear epidemics of flu, typhus, diphtheria, smallpox, scarlet

fever, measles or mumps that they knew in their youth. And the dreaded polio is no longer a medical factor, while TB is almost unheard of.

Let me remind you that these remarkable people lived through history's greatest depression. Many of these people know what it is to be poor, what it is to be hungry and cold. And because of this, they determined that it would not happen to you, that you would have a better life, you would have food to eat, milk to drink, vitamins to nourish you, a warm home, better schools and greater opportunities to succeed than they had.

Because they gave you the best, you are the tallest, healthiest, brightest, and probably best looking generation to inhabit the land.

And because they were materialistic, you will work fewer hours, learn more, have more leisure time, travel to more distant places, and have more of a chance to follow your life's ambition.

These are also the people who fought man's grisliest war. They are the people who defeated the tyranny of Hitler, and who when it was all over, had the compassion to spend billions of dollars to help their former enemies rebuild their homelands. And these are the people who had the sense to begin the United Nations.

It was representatives of these two generations, who through the highest court of the land, fought racial discrimination at every turn to begin a new era in civil rights.

They built thousands of high schools, trained and hired tens of thousands of better teachers, and at the same time made higher

education a very real possibility for millions of youngsters — where

once it was only the dream of a wealthy few.

And they made a start — although a late one — in healing the scars of the earth and in fighting pollution and the destruction of our natural environment. They set in motion new laws giving conservation new meaning, and setting aside land for you and your children to enjoy for generations to come.

They also held the dubious record for paying taxes — although you will probably exceed them in this.

While they have done all these things, they have had some failures. They have not yet found an alternative for war, nor for racial hatred. Perhaps you, the members of this graduating class, will perfect the social mechanisms by which all men may follow their ambitions without the threat of force — so that the earth will no longer need police to enforce the laws, nor armies to prevent some men from trespassing against others. But they — those generations — made more progress by the sweat of their brows than in any previous era, and don't forget it. And, if your generation can make as much progress in as many areas as those two generations have, you should be able to solve a good many of the world's remaining ills.

It is my hope, and I know the hope of these two generations, that you find the answers to many of these problems that plague mankind.

But it won't be easy. And you won't do it by negative thoughts, not by tearing down or belittling,

You may and can do it by hard work, humility, hope, and faith in mankind. Try it. Goodby and good luck to all of you.

BULOVA

The second most important item on Graduation Day.

The reason? Bulova quality gives the graduate a truly dependable timepiece and Bulova styling captures the spirit of youth.

A. Stainless steel sculptured case and link band. Instant change date. Blue dial. 17 jewels. \$65.
 B. Smart round case-blends into notched link bracelet. 17 jewels. Champagne dial. \$80.
 C. Gift dial and dark brown leather strap add to the smart look. 17 jewels. \$60.

First, of course is the diploma. Next should be a gift worthy of the achievement. And for generations the gift has been a fine Bulova watch.

DONT SUMMER

THIS SUMMER

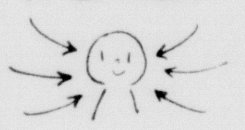

a word about

AIR CONDITIONING

It's easy and economical to have **TOTAL COMFORT** in an insulated, electrically heated home via

AIR CONDITIONING

it COOLS

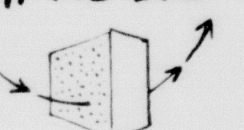

A constant, automatic draft-free circulation of air at any temperature you select.

it DEHUMID-IFIES

It "rings out" the excess moisture from the air to make you more comfortable.

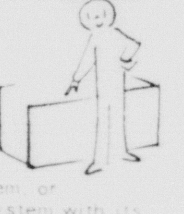

it FILTERS

It "dry cleans" the air of dirt and pollen to help housewives and allergy sufferers.

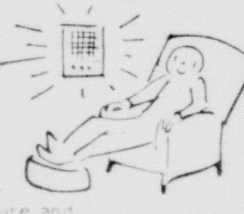

You can choose

CENTRAL UNITS (or) ROOM UNITS

For wall or ceiling.

Note: new models mount flush with walls. Adjustable temperature and special control features.

For wall or ceiling.

Note: new models mount flush with walls. Adjustable temperature and special control features.

COST? Surprisingly low No longer a luxury but one of the best buys you can make.

\$5000--

The QUESTION is--

Should I convert my present home to an **ELECTRIC CLIMATE CONTROL SYSTEM?**

The ANSWER is--

YES-- if your home (like most) can be properly **INSULATED**, then you too, can enjoy electric comfort at the same moderate cost as in a new home. At the same time it will maintain and increase the **VALUE** of your home -- your single biggest investment!

CALL your electric company **TODAY** for expert advice and information on costs, equipment and installation details. **426-3377**

Dance slab uses new type

A new way of reinforcing concrete is being used in the construction of the slab at the new Rodeo Arena dance pavilion being built in Hondo.

The method, called the Kelly System, utilizes a series of seven-strand, three-eighths thick steel cables instead of the usual steel reinforcement netting.

The cable, encased in a grease-lined plastic sleeve, is laid in the form for the slab, anchored at either end of the slab by steel plates. Then concrete is poured into the form in the usual way.

However, when the

concrete has hardened to a strength of about 2,000 pounds per square inch, hydraulic jacks pull the ends of the cables until they are stressed to 18,400 pounds of tension.

When that degree of tension is reached, the cables are locked in by a ratchet and remain stressed for the life of the slab.

This post-tension method compresses the slab by pulling opposite sides toward each other, and it greatly diminishes the chance of the slab cracking due to flex loads caused by settling or erosion of the ground.

Some of the regular steel netting was used in the Hondo slab to absorb the "live loads" imparted to the slab as a large number of people walk or dance on it.

The method is cheaper and faster and yet it is stronger than conventional reinforcement, claims construction foreman Bill Timberlake.

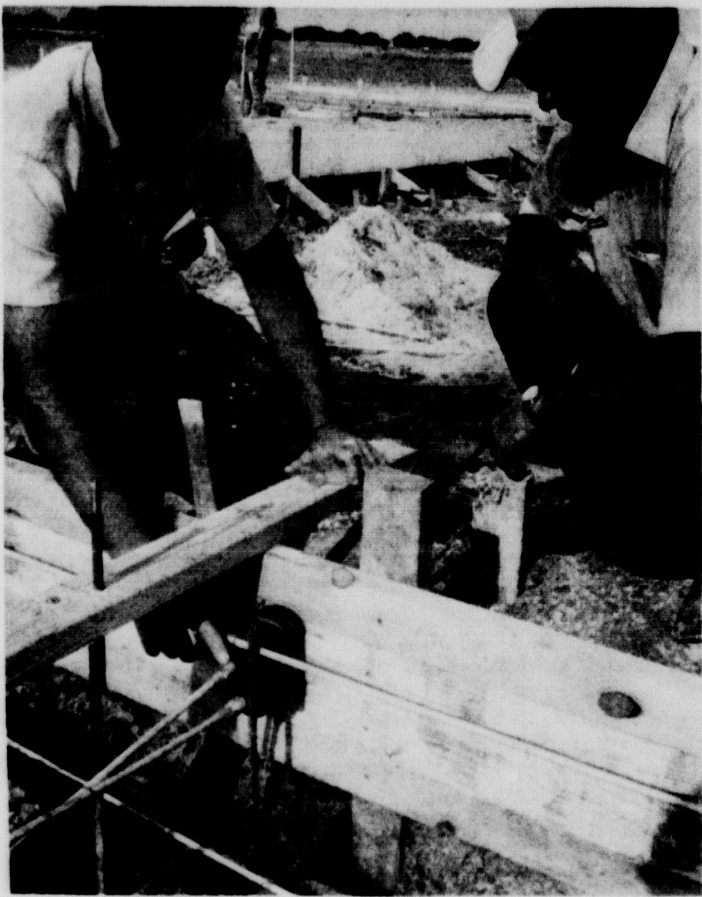

Although this is the first use of the method in Hondo, Timberlake foresees its use in most of future concrete construction projects.

I'm Here

Travis Wayne Attaway

Mr. and Mrs. Thomas W. Attaway of San Antonio are the proud parents of a nine-pound, one-ounce baby boy. He was born at 3:33 p.m. on May 3, 1973.

Travis Wayne is the third grandson of Mr. and Mrs. Herman Fohn. Paternal grandparents are Mr. and Mrs. Andrew Schneider.

THIS IS HOW IT'S DONE . . . Bill Timberlake, construction foreman for the new Dance Pavilion being built at the Hondo Rodeo Arena, shows Rodeo Association President Elmo Pope the new post-tension method of reinforcement being used in the slab. Before the cement hardens completely, the cables will compress it with a force of 18,400 pounds.

Governor appoints Poerner to Board

Governor Dolph Briscoe has recently appointed Representative John Poerner of Hondo as Texas legislative representative to the Southern Regional Education Board (SREB).

Representative Poerner will attend the Board's annual meeting held this year from June 12-14 at the Homestead Mountain Resort in Hot Springs, Virginia. A majority of the governors of the 14 member states are also expected to attend.

Although Rep. Poerner has attended the meetings for the past two years, this will mark his first year as formally appointed representative of the members of the Texas House and Senate.

The SREB was established in 1948 by the Southern Governor's Conference. According to Rep. Poerner, the board's function is to create policy and explore directions which higher education will take in the future. "Research

will be conducted at a regional level to allow states to pool together their educational resources," the Hondo representative added.

Rep. Poerner replaces former state representative Russell Cummings of Houston who was appointed to the board by Governor Preston Smith.

The 45th District Representative considers his selection as "one of the highest honors ever bestowed upon me. To be able to discuss educational policies with the governors of the 14 southern states," he continued, "is a position sought by every member of the legislature."

Here in Hondo

Mrs. Herman Fohn has returned home after spending a week in San Antonio getting acquainted with her new grandson, Travis Wayne Attaway.

Ten years in night school Gonzales graduates

Felipe R. Gonzales

Felipe R. Gonzales of San Antonio, formerly of Yancey, graduated on May 13 from St. Mary's University with a Bachelor of Business Administration degree.

His major was accounting, and he completed his studies with an average grade of B.

Gonzales, who now resides with his wife and three children, earned his degree after attending only night classes over a ten-year period.

He is a 1959 graduate of Yancey High School, and is the son of Mr. and Mrs. Ysidro Gonzales of Yancey.

FHA News

Hondo Chapters I and II of the Future Homemakers of America met May 14th in the Home-making Department for their installation honoring the incoming officers for 1973-74.

To serve as officers next year are as follows: President, Mariette Aelvoet; First Vice-President,

Kay Schulte; Second Vice-President, Gail Lutz; Third Vice-President, Anna Renkin; Fourth Vice-President, Dianne Mumme; Fifth Vice-President, Sandra Rogers; Secretary, Linda Mazurek; Treasurer, Donna Schueling; Historian, Jeanette Aelvoet; Parliamentarian, Kay Martin; and Pianist, Jan Nixon.

TRTA to meet in SA

The Hondo Unit of the Texas Retired Teachers Association will hold its last meeting of the term at the Municipal Auditorium at 2 p.m. on Monday, May 28th.

Speaker will be Dr. Lorraine Clark of the N.R.T.A. Institute of Life Time Learning. Her subject will be "For Better or Worse, But not for Lunch". Dr. Clark has been conducting workshops throughout the United States for the institute.

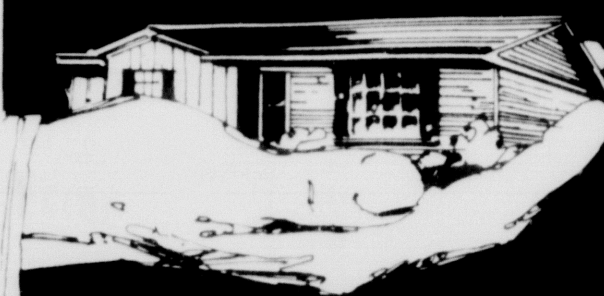

All retired and retiring teachers are urged to attend.

Story of Parker Creek dam one of teamwork

FIRST WATERSHED DAM . . . on the Parker Creek is under construction. Located on the property of Mr. and Mrs. Odie Gilliam, the dam will be 2900 feet long and have a height of 50 feet. Completion date is estimated to be in about eight months. Stake in picture represents the centerline of dam. [Photo by E. L. Abbott, SCS, USDA]

By Vernon Grunewald,
SCS USDA

The history of Medina County is one of outstanding interest as we turn back the years to the coming of the first settlers of this fertile land.

The first colonists were brought to this area by Henry Castro in 1846, settling first in Castroville, then upon the banks of the Quihi Creek and then between the Seco and Parker Creek of D'Hanis. Each location speaks of man's desire for locating near water and the common knowledge of fertile soil that is lying beneath the cover of green grass and healthy oaks.

Made up of mostly German and French immigrants from the Province of Alsace-Lorraine, they were seeking the quiet, peaceful life that is still enjoyed by the people of our District.

History and stories of our forefathers tell of the many trials and burdens that families suffered during the trying years of settling this county to the peace and contentment desired.

Two great problems are noted in the beautiful history of the D'Hanis area.

As the Indians raided this early settlement, trying to defend their open prairies of grass, wild game, and fishing areas, landowners dug deeper into the good rich earth for a foothold.

This was the greatest problem in the first year of growth. This problem has long vanished and is recalled only in history.

But the problem of the Parker and Seco Creek, just as dangerous as the unexpected Indian raids of years past, still exists today. The roaring flood waters have continued and are slowly but surely eating away at the life-giving soil, breaking the peaceful rest of all families who live in the area.

Many times in years past its waters have come quietly in the night from rains on the upper drainage of the Parker and Seco Creeks and snaked its way into the fields, homes, and business places in the D'Hanis area.

By request of the landowners, a meeting was called in 1966, to discuss this floodwater. This meeting, arranged by Commissioner Charles Langfeld and the Soil Conservation Service was to discuss Public Law 566.

This law, well taken, would provide assistance from the Soil Conservation Service; and with Federal

Financial support, it would place the Seco and Parker Creek in a small Watershed Program.

With properly located and designed dams, the Seco and Parker Creeks could be harnessed; and flood water from large rains could be controlled.

By unanimous vote, the landowners placed a request under Public Law 566, for the Soil Conservation Service to survey and locate sites for dams to be constructed for control of future floods.

After all correspondence was completed, the Soil Conservation Service brought in its Watershed Personnel and nine dams were located and designed after months and months of engineering work.

The construction of nine dams reached a cost of approximately \$3.5 million payable under Public Law 566 by the Federal Government.

Easement and rights of way were payable by the Commissioner's Court and the Edwards Underground

Water District, as co-sponsors of the controlling structures.

The Medina Valley Soil and Water Conservation District accepted the responsibility of assisting landowners in the continuous work plan, and program of conservation in the watershed.

Everett Abbott, local District Conservationist for the local Soil Conservation Service Field Office, has continued the plan and worked with the Watershed landowners, the Commissioners Court, and the Edwards Underground Water District.

Many problems have existed as it does with all great and worthy projects such as this one. Folders of correspondence have accumulated as work and correspondence continues between responsible leaders and men of decision.

The entire project temporarily stalled out under such great adversities.

The Edwards Underground Water District, with great foresight for the future, joined with the Soil Conservation Service in putting forth every effort to get the project underway.

Representing the Edwards Underground are Lawrence Rothe of D'Hanis, Bradley Bailey of Hondo, and Gilbert Haby

and Maurice DeCock of Castroville.

The efforts of these men joined by many landowners, Commissioner Charles Langfeld and County Judge Jerome Decker, have played an important role in the watershed program.

The Edwards Underground Water District, realizing the value to all landowners in the watershed, and the recharge value of more than 600 acre feet of water into the Edwards Limestone formation from one dam, accepted a low bid of \$319,220.50 in the construction of one dam on the Parker Creek.

THIS DAM IS NOW UNDER CONSTRUCTION - On the 3rd of May 1973, a date that shall long be remembered, equipment began to clear the hundreds of oak on the site that will be one of the proposed nine to be

constructed.

Even with the oaks cleared for construction, the area is surrounded by thousands of other oaks left for beauty and wildlife of the area.

This dam, chosen for its overall value to control the raging waters of the Parker Creek, is being constructed on the ranch land of Mr. and Mrs. Odie Gilliam.

The dam when completed will be 2,900 feet long and have a height of 50 feet.

When flowing through the spillway at capacity, the water will cover 311 acres above the dam. In 6½ days the water will empty from the emergency spillway and be running only from the principal spillway.

There will be 57,000 yards of rock blasted and excavated from the spillway area. Only one dam will be larger in Medina County to date, that being the Medina Lake Dam constructed of cement and rock.

The Parker Creek dam will be constructed of earthen fill, with area's of rip-rap rock and over 500 yards of cement.

The contractor has one year to finish construction, and in discussing the project he feels that he can complete it in approxi-

mately eight months.

Of all conservation of soil and water completed in the Medina Valley Soil and Water Conservation District, this project is the most pleasing one, to this writer, to get underway.

The benefits of this dam far exceed the costs, ground, and foot work of

many personnel of civic organizations such as the D'Hanis Lions Club, the Edwards Underground Water District, the Commissioners Court, Judge Decker, the Anvil Herald, members of the Soil and Water Conservation District, and others too numerous to mention.

The Tough One

Servel gas air conditioning is built

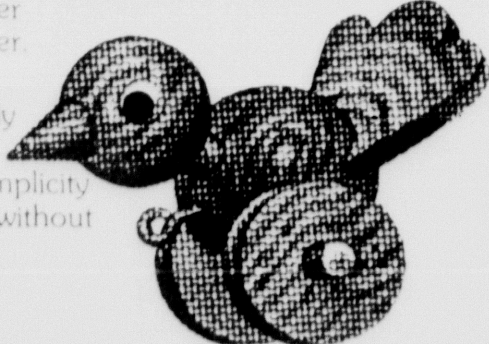

tough to provide maximum comfort for many years. For ordinary air conditioning, this rugged climate is just too rough!

Each part of a Servel gas unit is strong, designed to last longer, work better. Servel actually contains more stainless steel than any other air conditioner.

Servel Gas Air Conditioning has only a few moving parts, and there's no expensive compressor to replace. Simplicity enables Servel to perform for years without losing its original workload capacity.

Cheap air conditioning

is no bargain. Servel may cost a little more to buy, but you save year after year on operation and maintenance. And Servel lasts far longer. Call United Gas today.

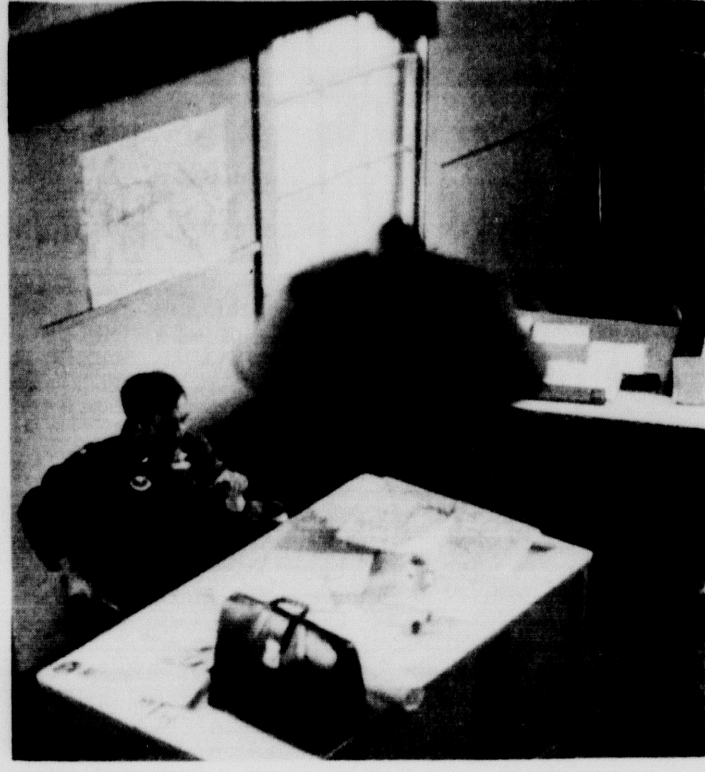

United GAS
GAS FOR GOOD. CLEAN LIVING

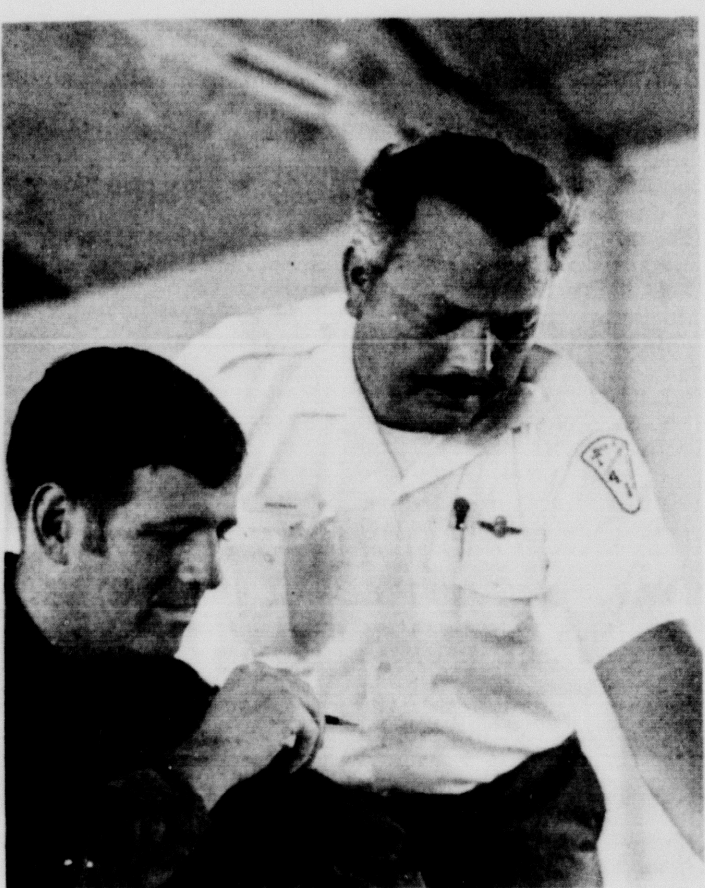

IT MEANS SOMETHING AGAIN . . . The old Hondo Air Base Gate, although unused, still stands as a reminder from the past. Hondo is once again involved with military flying with the ATC Flight Screening Program.

EXPLAINS T-41 . . . Colonel John G. Schmitt, Jr., Officer School Deputy Commander for Flight Screening and Operations, explains the interior configuration of the Air Force T-41 aircraft. The T-41 is used in the new ATC Flight Screening Program at Hondo Municipal Airport.

TOP RIGHT— CHIEF OF FLYING . . . Lt. Col. Anthony Gangol, Chief of Flight Screening, is responsible for the flying portion of the Flight Screening Program. Each student receives instruction on flying the T-41 aircraft and must successfully complete a solo flight.

LOWER LEFT— BUILDING HANGAR . . . Pedro Vasques puts the finishing touches on the new Hangar/Headquarters for the ATC Flight Screening Program at Hondo Municipal Airport.

LOWER CENTER— DISCUSS PATTERNS . . . Captain William Kopplin, T-41 Chief of Academics, discusses flying patterns with one of the civilian T-41 instructor pilots from the Del Rio Flying Service, contractor for the Flight Screening Program.

LOWER RIGHT— ON OPERATIONS DESK . . . Major Samuel Sylvester, Chief of Standardization/Evaluation, mans the temporary operations desk at the Hondo Municipal Airport. The operation desk is the nerve center for the T-41 operation.

[OFFICIAL U.S. AIR FORCE PHOTOS]

Familiar sounds heard again at Airbase

Lackland AFB — As the tall weeds rustle in the hot breeze, and the banging of a broken screen door at the old base operations interrupts the rhythmic buzz of busy insects, a forgotten sound is now being heard at Hondo Air Base. The sound of aircraft taking off and coming home once again fills the air with excitement and expectancy.

With the cooperation of the city of Hondo and Gary Aircraft Company, the Air Force's newest concept in pilot training is located at one of the oldest military airfields. The program is under the supervision of the School of Military Sciences, Officer, here.

This new training concept is expected to save the taxpayer over two million dollars. The program combines officer training with basic pilot training. This allows the officer school to determine whether an individual has the skill and ability to succeed in an advanced flying program.

The student pilot spends his first three weeks in training at the officer school. Here he will learn the basic military skills required of an officer. The next three weeks are spent in the flight screening program where, the officer trainee is given a total of 14 hours of flying instruction including one solo in the Air Force T-41 airplane. The T-41, Modified Cessna 172, is a single engine, light, propeller driven trainer.

Once the OT satisfactorily completes this phase of the program, he returns and completes the final nine weeks of Officer Training needed to earn his commission as a second lieutenant. After commissioning, the lieutenant will go to undergraduate pilot training at one of several Air Training Command bases.

Military aviation is no stranger to Hondo ever since the base opened in 1942 as the world's largest aerial navigation school. Shortly after World War II ended in 1945, Hondo was closed and the military moved out. In 1948 the City of Hondo bought the base from the government for one dollar, to be used for a municipal airport.

The base was reactivated in 1951 to be used as a United States Air Force Training Base. The base remained in operation until 1958 when military operations once again stopped.

Parts of the base is still used as the Hondo Municipal Airport. Another area is being used by a Gary Aircraft Corporation for rehabilitating aircraft. The older unused area is where the new United States Air Force Flight Screening Program is being located.

Flying program to have impact

The above statistics released by the United States Chamber of Commerce apply appropriately to Hondo at this time.

With the official May 17 opening of the Pre-Screening Flying Training Program by the U.S. Air Force at Hondo Airbase under the operation of Del Rio Flying Service, this type of impact can be expected in Hondo in the near future.

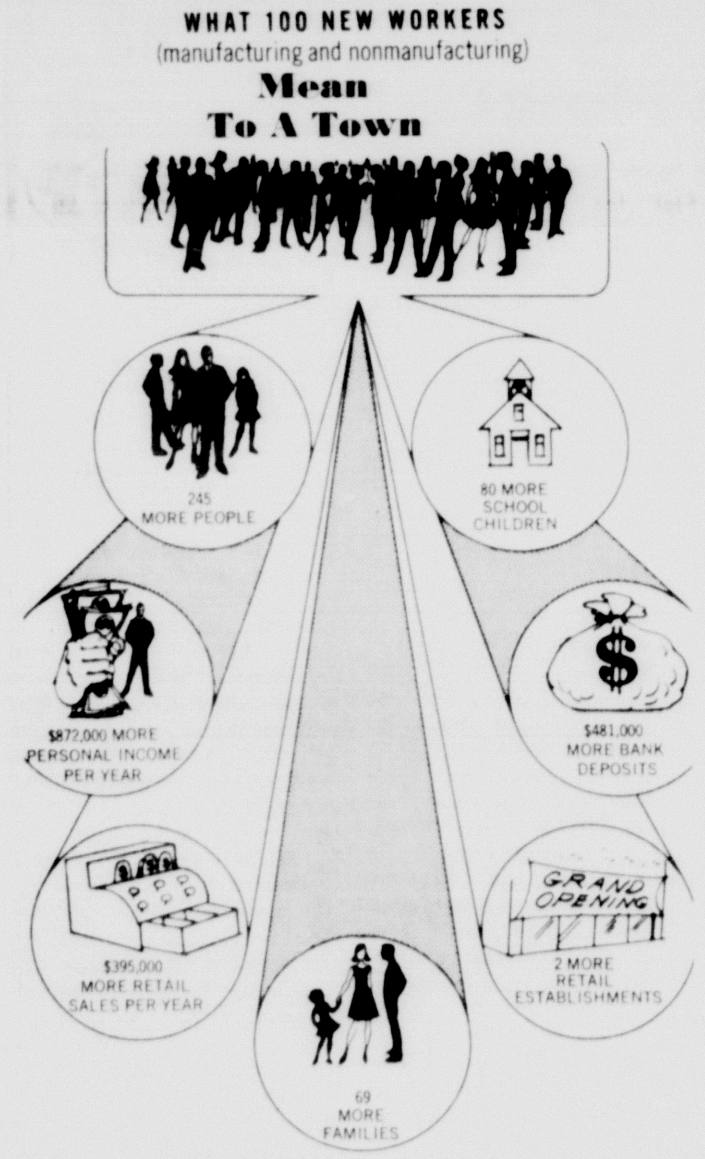

Employment figures given so far by the Del Rio Flying Service indicate they will eventually employ from 75 to 85 people, including instructors, maintenance and supply personnel, guards and office personnel.

The Air Force strength in this project has been indicated at about 21 to 25 people. All of them will not live in the Hondo area, because they are already settled in the San Antonio area.

But the fact remains, this program will have an impact on the economy of our city and area. That impact might not reach the exact figures shown in this illustration, but the figures shown here will provide an idea of how the city and area might be affected.

The Anvil Herald heartily welcomes this program to Hondo and extends its fullest cooperation to Col. John G. Schmitt, Jr. and his Air Force personnel and to Bruce Baize and all his personnel at the Del Rio Flying Service. And we sincerely believe that in extending this welcome and cooperation we are speaking for the entire city of Hondo.

BURNIS LAWRENCE

Methodists slate workshop

The First United Methodist Church of Hondo will have a very important day on Sunday, May 27. After a short worship service (which begins at 10:50 a.m.), the Building Committee will report its findings and recommendations that have resulted from their work over the past few weeks.

After any discussion, the congregation will vote on whether to remodel the existing sanctuary or whether to tear it down and rebuild a new one. All church members are urged to make an extra effort to attend church and cast their vote on this very important decision.

Also, the graduating seniors of our church will be recognized and presented a gift at this worship service.

Rothe honored

Joe H. Rothe of Bryan, Texas, formerly of Hondo, was cited by the United States Department of Agriculture this week, one of 87 USDA employees to be honored at the 27th Annual Honor Awards Program in Washington.

Rothe's citation read: "For phenomenal success in conducting and supervising educational programs to combat diseases, pests, and emergencies, and in mobilizing resources to assure equitable opportunities for farmers in a growing Texas agriculture."

During the VEE outbreak that threatened the Texas horse industry in 1972, Mr. Rothe helped to mobilize Extension agents and local people to establish vaccination clinics and a reporting system. This helped prevent spread of the disease to other states.

Rothe is a graduate of Texas A&M University and a native of Hondo. He is presently in the Cooperative Extension Service at College Station.

BEARING WITH IT -- There's "bearly" time for a break, but [left to right] Mary Anne Flory and Jacques Fitzpatrick have found time for a few minutes of levity. As members of the Hondo High School Owl Band, these teens were among 7,000 recent participants in the Six Flags Over Texas Concert Band Festival. An annual event, the band competition was held May 10, 11 and 12 at the big theme park in Arlington.

Library News

The Library Workshop, conducted by Richard M. Setz of the Texas State Library, was deemed successful by all who attended May 8 in Hondo. Representatives of various area libraries were given much interesting and helpful information on the proper operation of a smaller library.

Among the subjects discussed were standards, equipment, audio visual education, cataloging and others. Attendees were provided lists of sources from which to obtain free and inexpensive material.

In attendance were Charlotte Goleman, Edith M. Bursey, Brackettville; Mrs. Robert Sugg, Georgia Scherer, Jayne K. Puls and Dora Wollschlaeger, all of Boerne; Virginia Mahler, Junction; Margo Symington, Devine; Lynne Hardy, Castroville; Louise Moore, Joyce Rainey and Sue Donaghe, all of Utopia; Vernita L. Bradshaw, Mrs. E. P. Giles and Mrs. Roy Hollar, all of Comfort; Sandra B. Carr, Eagle Pass; Mrs. Elva Rigg, Ingram; Thelma Phillips, Fredericksburg; Ruth C. Lawler, Castroville, and Mrs. Getz from Austin.

Also present were Sally Brucks, Gladys Knowles, Martin Noonan, Mr. and Mrs. O. M. Redus, Glena Reilly, Lottie Maw, Ina Mansell, Cindy Winkler, Linda Milam and Martha Sue Keilman, all of Hondo.

Mrs. Sally Brucks, chairman of the board of trustees, Hondo Public Library, welcomed the visitors. The City of Hondo provided coffee which was served during the registration period by members of the Hondo Junior Service League.

Decorations of flowers and floral centerpieces were contributed by Mr. and Mrs. O. M. Redus and the Paul Reilly family. Memo pads and pencils were given by Mrs. Brucks and Tony Mendoza, Hondo Anvil Herald.

Mrs. Gladys Knowles and Martin Noonan assisted with the greeting and serving of guests. Also working with the registration and greeting of the librarians were Mrs. Lottie Maw, Hondo librarian, and Ina Mansell, assistant librarian.

Name tags for the registrants were prepared by Mrs. Norman Buescher, member of the Hondo Library Board, and the young ladies of the Hondo Junior Service League. Members of the League who participated in the meeting included Cindy Winkler, Linda Milam and Martha Sue Keilman.

J. Gordon Barry, Mayor of the City of Hondo, has informed Hondo Public Library that its request for employment of one library helper has been approved. This was made possible by the vote of members of the City Council to allot a portion of Federal revenue sharing funds to this purpose.

A sizeable memorial donation, dedicated to Robert and Mae Hudspeth by their children, has been received from Mrs. Dewey C. Brown, Dallas.

Lee Ricketts, Houston, has sent the library several paperbacks and books, among which are "American Democracy in Theory and Practice" by Robert K. Carr and others and "American Political Patterns" by Dan Nimmo.

Mrs. Maw reports that the agricultural reference books donated as a memorial to Frank X. Vance by Hondo National Bank are now available to readers for use in the library.

Librarian Maw again reminds readers that overdue books are a big problem still and that all books checked out by library members either MUST be returned or the library must be reimbursed for the cost of the book. At the present time the library charges no overdue fine and books can be returned day or night by using the bookdrop.

Pride in children's ability proved deserved by record

Today, the pretty blue cap and gown hangs in our house as it has five times before. I often wondered in years past would we be allowed time on earth to see them all complete these first 12 important years of their education.

In September of 1949 when our first was taken to school to begin her education, our education as parents also began. We soon learned how little she thought we knew and was surprised to know we had been to school at all. So it went from year to year. Each so happy and eager to go to school.

They had the usual

childhood diseases, some serious, that kept them out of school. Even with this and that unpredictable Hondo Creek, several children had perfect attendance, several years in a row. Their father took them across the creek many times in a truck or front end loader when a school bus or car couldn't cross. What a way to start or end a day in school!

There have been many class meetings, Halloween Carnivals, banquets, conventions, judging trips, band trips, cookies, cakes, and bread for their bake sales, and other activities for us to remember with

joy. There have also been those library books to read, themes to write, projects to finish, records books to complete, animals to groom, that kept us at home till a more convenient time so the children could go with us.

As they grew older they took part in their chosen activities, Order of Rainbow for Girls, school band, Methodist Youth Fellowship, church choir, Future Homemakers of America, 4-H Club and Future Farmers of America. Their father needing the boys help when FFA judging contests and conventions were in first place; felt Father Farms Alone was more correct.

In these organizations they learned to work hard - accept other people - had the joy of winning and accomplishment. Also, that defeat has its own reward and another opportunity for another time and often better things. Each loved and enjoyed these activities, and as each leaves home to go into the world that is new, they are not completely among strangers, for they meet again the friends they have made in these organizations and renew their friendships from time to time. These organizations reach out from county, district, area, state and national levels. A most wonderful education in themselves.

Stanley received his Hondo High School diploma in 1931. Nancy in 1961, Patricia in 1963, Billy Joe in 1965, Stella in 1968, Bobby in 1971, Jimmy 1973. All but the last year of my education was in that area of Texas where the sun seems to rise out of the earth and return to it without the benefit of trees or mountains shadowing that view. In this lovely farming area of Lubbock my three brothers, two sisters and I learned from our parents to love the land and care for it. Our attendance at church and Sunday school was expected and we were there. For this training I am eternally grateful to my parents. We knew we lived in "GOD'S COUNTRY", and didn't know till years later that Hondo had claim on that title.

In humble gratitude to our Heavenly Father who allowed us the privilege of helping each child through these 12 of education, to each and every school teacher, Sunday school teacher, pastor, community leaders, the Anvil Herald and KRME for their help, friends and relatives who contributed in so many ways to their education, a very special THANK YOU. They still need your support and concern as they go from this community and perhaps in time they will return to live among you.

I am sure the children would join me in publicly thanking their Father for providing for their material needs from baby days through college and on, in a most remarkable way. He felt playing and money spending comes natural to children, but work and thrift must be taught. When school resumes its schedule in the fall, ours will be elsewhere. We will have a reminder that Hondo Schools are still in business, the taxes will be due.

I can't think of a better place in life to be, than 18 years of age, healthy, a high school diploma in hand, and to have the choice of going to work or to college. Unless it would be to have had the joy of living these wonderful years oneself, and the privilege of living them six times over again in the lives of our children.

Here's to you Jimmy, your three sisters and two brothers and the graduates of 1973. The world steps aside and lets pass anyone who knows where he is going. Good Luck and God Bless each of you. You truly have had the joy of living in GOD'S COUNTRY.

Thank you again, to a community of fine people.
Mrs. Stanley Mumme

Settlement News

Mr. and Mrs. John Lawrence visited Mrs. Bessie Anderson, his grandmother, who is a patient in a San Antonio hospital, Friday.

Mrs. G. A. Masters visited the Pat Masters one day this past week.

Mrs. Ray Horner enjoyed visiting Mrs. Paul Schott one day this past week.

Miss Vicki Biediger, bride-elect of Marvin Burton, was honored with a linen shower at the Lloyd Wengeroth home Thursday. Hosting the shower was Mrs. Lloyd Wengeroth and Mrs. Dennis Wengeroth.

Enjoying the afternoon with the Ray Horners Monday was Mrs. G. A. Masters and Dwayne and John Tarvin.

Visiting Mr. and Mrs. George Masters Saturday evening were Mr. and Mrs. Bill Bendele.

Henry Carle was a visitor of the Elmer Biediger Sunday evening.

Mr. and Mrs. Sam Tschirhart enjoyed visiting the H. Aldridges one day

last week.

Mrs. Ray Horner and Terri Tarvin and Mrs. Paul Schott enjoyed shopping in San Antonio Wednesday morning.

Mr. and Mrs. John Lawrence and family attended a birthday party for Tommy Wanat, Jr., son of the Tommy Wanats, Sunday evening.

Mrs. Bill Wengeroth and Claude Wengeroth were business visitors of San Antonio Tuesday.

Mr. and Mrs. Sidney Stuebing were visitors of the G. A. Masters Sunday evening.

Mr. and Mrs. Ray Horner were supper guests of the John Lawrence family Saturday evening.

Otto Hutzler of Bandera enjoyed visiting his sister, Mrs. Paul Schott, this past weekend.

We are sorry to hear that Mr. Joe Horner, 90 years of age, of Ducor, California passed away on May 12. He is the grandfather of Mr. Ray Horner. We extend our sincere sympathy to that family.

D'Hanis News

Mr. and Mrs. Clarence R. Blount returned to their North Little Rock, Ark. home after visiting in the home of her mother, Mrs. Matt Koch, Sr., several days. They were in SA where they attended the funeral of Charles H. Blount, father of Clarence.

Mr. and Mrs. Gus Peter of Pittsburg, Calif. visited in the home of Mr. and Mrs. Louis Carle last Friday. Mrs. O. W. Tondre, Mrs. A. J. Finger, Mrs. Lawrence Carle and Mrs. Sam Zerr joined them for a visit. Gus attended D'Hanis School when he lived here some years ago.

Mrs. Jack (Ruby) Braesicke of Dallas spent the past week visiting in the homes of the O. J. Reinharts, the W. A. Nehrs and the L. J. Carles. Other relatives and friends joined in visiting with her during her stay.

Mr. Guadalupe Vega of Midland and his daughter, Gloria, of SA were overnight guests of his mother, Mrs. Hilario Vega, on Saturday. Gloria is in nursing training in SA. Other relatives joined the family for a visit.

Mr. and Mrs. John Tondre of Victoria were weekend guests in the home of Mrs. O. W. Tondre.

Mr. and Mrs. David McGehee of Austin and Mr. and Mrs. William Wauson visited relatives on Sunday evening. The foursome had just returned from a trip to Las Vegas, Nev., San Diego, Calif., where they were the guests of the George Meeks family. They also visited Disneyland and other points of interest.

Mrs. Ben Zerr, Mr. and Mrs. Maurice Koch, Mrs. Joe Fillinger, Thomas Joe Fillinger, Charles Koch, Mrs. D. W. Scott and Marilyn, Mrs. Sam Zerr and Susan Graff and James Wiemers and Mrs. Jerome Zinsmeyer of Hondo, Mr. and Mrs. Henry Biry and Miss Carrie Langfeld were among those attending the Commencement Exercises of Ursuline Academy, SA, held at the Convention Center Theatre on Saturday evening, May 19th.

Miss Melissa Wall, daughter of Mr. and Mrs. Tom Wall, and Mary Elaine Koch, daughter of Mr. and Mrs. Joseph Koch, were among the candidates receiving their high school diplomas. The families attended receptions at the Wall and Koch homes following the graduation.

Mr. Robinson was a former resident of Hondo.

He was 41 years old. Cause of death was a liver disease.

Robinson was the husband of Ernestine Ziegenbalg Robinson.

He is survived by his wife; sons, Bill, Mike and Russell; three brothers, one sister and several nieces and nephews.

Don't buy a car tape player 'til you've heard this one!

It's the RCA Mini Stereo 8, and if you like your sound big, but prefer a small compact instrument, this is the one you want to turn your car into a mini-moving concert hall. Ideal for cars, boats or planes, the RCA Mini 8 offers features usually found on larger players, including push-button selection, program indicator lights, and sliding, sound blending controls. If you're in the market for a great car tape player, don't buy until you've heard the RCA Mini 8.

Governor proclaims

MIA Day

Governor Dolph Briscoe
has proclaimed June 3,
1973 as "National MIA
Day" in Texas, and urges
all citizens to rally behind
their national leaders in
the quest for a full and
accurate accounting of all
MIAs.

His proclamation was
covered in a release by Bill
Boykin, General manager
of the Texas Press
Association.

Governor Briscoe said:
"The number of captured
Americans recently re-
leased by the Communist
leaders in Indo-China is
only 30 percent of those
who have been listed as
Prisoners of War (POW)
or Missing in Action
(MIA), and... the other
70 percent, or more than
1,300 men, have not been
accounted for by the
Communists."

He continued: "And
those who may be still
alive endure secret captiv-
ity and its degradation and
deprivations."

Hondo readies for big Rodeo, June 1-2

The Medina County Rodeo for 1973 will start at the Hondo Arena on Friday, June 1. The two-day annual event will see all the thrills of the rodeo plus a special cow-milking event for Medina County Rodeo Association members. In addition, there will be dancing both nights on the brand new dance pavilion located at the Rodeo Arena.

Books open for entries in the rodeo at 2 p.m. Thursday, May 31, at the Rodeo Headquarters, located in the Chamber of Commerce office in Hondo. They will close at 6 p.m. the same day. All entry fees must be paid in cash.

Some of the events to be included in the slate of events are bareback riding, calf roping, barrel racing, team roping, bull riding and the calf scramble for kids 12 and under.

Fees range from \$25 for bull riding, bareback riding and calf roping, to \$30 for team roping (enter twice), and the milking

contest. The barrel racing fee is \$5, and there is no fee for the calf scramble.

Vic Garza's Rodeo Company is in charge of the rodeo stock this year.

Adults admission to the rodeo will be \$1.50, and children will be admitted for 75 cents.

Both Friday and Saturday nights, a dance will be held at the new dance pavilion at the Rodeo Arena. Music will be by the Country 5.

This is the biggest event of the year for the MCRA, and they anticipate a record-breaking turnout this year.

2nd round of Hill Country play starts Sunday

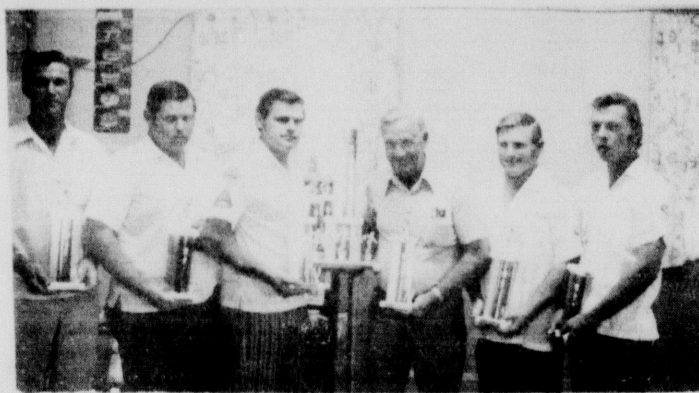

The Hondo Eagles had a disappointing day Sunday against the Medina Valley 90's. After leading off the game with home runs by Kenny Weynand and Johnny Miranda in the first inning, a combination of pitching problems and MV power hitting caused the Eagles to lose 24-4 in seven innings.

The Eagles, desperate for a plug in the crumbling pitching which allowed 13 90's free passes to first base, used six pitchers in the abbreviated contest. Of those, Ricky Powell absorbed the loss for Hondo.

Ralph Hoog of the Medina Valley team socked a grand slam home run to split the game wide open.

In other action, the D'Hanis Cardinals were idle Sunday in preparation for the second round of Hill Country play.

Sunday will begin the second half of the season. The Eagles will journey to New Braunfels for second game with the Lions. D'Hanis will be at Fredericksburg and Medina Valley will play at Kerrville.

PEARL TEAM DOUBLE WINNERS . . . taking First Place in both the tournament and in the Wednesday Classic League. Left to right are Richard Winters, Bob Britsch, Rick Rohrbach, Pete Powell, John Paul Rohrbach and Larry Griffin.

SCHLITZ TEAM . . . took Second Place in Wednesday Classic League. Shown are three Schlitz team members, Sonny Schmidt, Harold Schweers and Gizmo Freeman.

BOBBY BRITSCH . . . won this trophy for his high individual game, a 245 score.

TOURNAMENT SINGLES WINNER . . . Pete Powell holds his trophy for tops in individual competition.

Cowboys take bi-district with 10-4 win over Bruni

The D'Hanis Cowboys ended their baseball season Thursday night in Hondo, chalking up an easy win over Bruni for the Bi-District Championship.

Starter and winning pitcher Spencer Burrell was plagued with control problems, walking eight batters and striking out four before being lifted for Bobby Joe Rothe in the fourth inning.

But Burrell's problems were minor compared to those of Bruni pitching. In the fifth inning, with a still-uncomfortable 6-3 lead, the Cowboys scored four runs. All four men had reached base on walks and three scored on passed balls at the plate. The fourth, David Villareal, scored as David Nester drew a pickoff throw while on first base. Caught in a rundown, Nester delayed the tag long enough for Villareal to reach the plate from third base.

In all, Bruni pitchers Laurel and Vera walked nine D'Hanis batters, striking out five. Laurel drew the loss for Bruni.

David Nester led D'Hanis hitters with a triple and a single. Cowboy batsmen accounted for eight hits in all, with a triple by Ray Gallegos and singles by Bobby Joe Rothe, Spencer Burrell, Alan Huser, Jerry Lopez and David Villareal.

Cortinas of Bruni led that team with two hits, followed by Herrera and Rodriguez with one each.

Hondo will have Defensive Driving Course

A Defensive Driving Course, sponsored by the Hondo Home Demonstration Club and the Texas Agricultural Extension Service, will be offered on June 11, 12 and 13 at 7 p.m. in the Hondo High School.

Fee for the course is \$10 per person, and those who complete it will receive certificates which entitle them to a 10 percent reduction in bodily injury, property damage, medical and collision insurance premiums for a period of three years.

The Defensive Driving Course instructs participants on how to avoid a collision with the vehicle ahead and behind; how to avoid a collision with an on-coming vehicle or how to avoid an intersection collision; it teaches the art of being passed and passing on the highways; and how to avoid common collisions. Modern audio-visual techniques will be used each night to teach the class.

Richard Adams, Hondo, who received his training from Van Smith, Safety Division of the Texas Department of Public Safety, will teach the classes.

The course will consist of eight hours instruction on three consecutive nights. The registration fee will be payable at the first meeting on Monday night.

If you are interested in taking the course, please call Gaye Bippert, County Extension Office at 426-2233 or Richard Adams at 426-3165.

NURSING TESTING SCHEDULED

There will be a special testing session for the Southwest Texas Junior College Vocational Nursing Program at 8 a.m. May 29.

Anyone still interested in applying for the 1973-74 test is taken.
